Solution With U. S.

Passing from the historical and political factors, the speaker spoke of the social and educational conditions, as well as the factors of religion and morals, that enter into the Turkish problem or the problem of the far cast, and brought his discourse to an end by declaring that the solution lies, not with Europe, but with America, and not with guns and armament, but with work of the missionary.

Work of Missionaries.

work of the missionary.

Work of Missionaries.

He spoke of the work of the bands of missionaries in the far east, and how through hospitals, orphanages, schools the Turkish people and its subject races had been lead into broader and more generous fields. The Turkish problem can only be solved by a program of humanity, and not until the empire is completely smashed and the political power gone can the downtrodden people of that race hope for real freedom and real democracy, he concluded.

David McKnight Taiks.

David McKnight made an appeal for the Laymen's Missionary novement, asking that all Rotarians who felt the wish or the desire to swell the registration should give him their manes. 'He is not a matter of money—we have the money necessary,' he said, 'but we want to have a membership and a registration that will give us the same prestige as other cities in America business and financial interests and saved them from a rope-tition of the Rotarians took out memberships.

Mr. Wilson.

Keep Suffrage Out of Finiterm.

The platform adopted expressed the faith of New York's Democracy in the president and urged his renomination and reelection. If was adopted amid prolonged cheering. It dealt solely with national issues. A futle attempt was made by advocates of woman suffrage to insert in the platform a plank pledging the party to support the movement.

Former governor Glynn gave his party's miswer to the speech of fermer United States senator Elihu Root before the Republican state conference in New York several weeks ago.

The Federal Reserve Act.

The Federal Reserve Act. After reviewing the legislation en-acied during the Democratic control of congress. Mr. Glynn replied to Mr. Root's reference to the federal reserve not. He charged that Mr. Root as senator opposed the passage of the measure.

"This law," continued Mr. Glynn, "is one of the greatest achievements of the administration of the last 50 years. There never has been a finer exhibition of foresixht and statesmanship than that exhibited by the president in insisting upon the passage of the federal act. Subsequent events showed the president was prempted by wondrous economic insight."

governor declared, and he blamed the foreign war for the decline in imports.

Dedging Hame for Foreign Policies, "For years," continued the speaker, "Mr. Root has been acclaimed as apostle of peace, and in 1912 was awarded the Nobel prize for the promotion of peace, but now he sallies forth is a drum and trumpet statesman. "From a cooing dove of peace. Mr. Root suddenly transforms himself into a sweeping hawk of war.

"From a cooing dove of peace. Mr. Root suddenly transforms himself into a sweeping hawk of war.

"Years ago enthusinsts in Bohemia took the skin of John Ziska, the patriot, and stretched it as a drumhead to rouse their followers to war.

"So today Elihu Root would stretch the skins of the victims of the Lustiania, the skins of the victims of the Lustiania, the skins of the victims of the Belgium invasion into a drum head to rouse to kindly sentiment of sympathy into cruel frenzy of war.

"Mr. Root may beat his grumhead and blare his trumpet, but president Wilson will go right on winning the plaudits of the American people by appealing to reason, humanity and common sense and by keeping the United States the uncompromising champion of the neutral world and the undaunted maintainer of the principles which have guided this nation since 1778."

Says Mexican Problem "Inherited."

Mr. Giynn declared the Mexican situation was an unfortunate inheritance of the Democratic administration.

"The truth of the matter is," continued the speaker, "if the Taft administration had given Madero one-tenth part of the support and assistance that this administration is giving the de facto government, president Madero would most assuredly have been committed, the loss of American lives and property since that the would not have occurred and Mexico would have been oppared the horrors of the fratricidal war which since has prevailed there."
